The fact that our supt went rogue and met with Dept of Finance in Sac is disturbing

It seems that still this board has not been able to make it clear to the one employee we can hire and fire, that there is a process of balancing things and to that end

Meeting with local elected is urgently needed to find out what they can learn about the fact that we may be taken into state receivership.

Sorry to say this is likely what the "fraud" comment is referring to and we do not want to be surprised

Let me know thoughts and comments

Rosie
